Scanners & Full Service Support

Saito are Solution Partners for TSC Printers. The introduction of the new TE200 Series expands TSC Auto ID's growing line of affordable, high-performance desktop-class label printers.

The TE200 Series provides customers throughout the world with competitive, durable, entry-level thermal transfer or direct thermal printers that are both versatile and easy-to-use.

The TE200 Series is inexpensive, but it looks and performs better than its more expensive competition. The TE200 series features two durable gear-driven motors that are capable of handling large capacity 300 meter ribbons and large rolls of media inside its sleek design. If the 5" interior label capacity is not enough, simply add an external media unwinder and the TE200 series can easily handle up to 8.4" OD rolls of labels designed for high cost industrial label printers. These printers are ENERGY STAR® qualified.

TE200 SERIES - Superior, Fast, Affordable Performance Featuring Legendary TSC Durability

Features:

- 400 MHz 32-bit RISC processor with 16 MB SDRAM, 8 MB Flash memory for TE200, and 64 MB SDRAM, 128 MB Flash memory for TE210
