Fresh Produce

Here at Saito we can help you get your fresh fruit and / or vegetable products out the door as quickly as possible, and with all the right labelling to meet the regulations. We have spent 30 plus years working with clients in the food processing sector, creating smoother and more cost-effective systems for tracking products. Saito is HACCP certified – we have a custom built label production environment at Saito New Zealand which meets global standards for food safety.

We can help you:

- Meet regulatory compliance through labelling and tracking systems
- Use date labelling to track perishable items to minimise waste
- Monitor pallet and carton labels through ambient, chiller or freezer conditions, as well as warehousing and transportation
- Label ingredients and content information including genetic modification and allergy notes
- Protect the integrity of your food with anti-counterfeit labelling

Tracking in real-time maximises the speed and efficiency of your food processing business. We help with a vast range of labelling, brand and barcoding applications. For extra reassurance, Saito's GS1 barcode certification means that your barcodes will comply with global standards. This integrates your barcodes with your wider supply chain, creating smoother stock and supply chain management.

Products available:

- Synthetic crate and bin cards
- Pallet and carton labels suited for ambient, chiller or freezer conditions
- Label materials that are certified for use in food manufacturing (secondary and tertiary packaging)
- Adhesive options for plastic, paper, card or rough surface applications
- Tethered and portable barcode scanners, both standard and antibacterial
- Thermal label printers (industrial, desktop and portable)
- Hand-labellers from Saito and Meto
- Label design and printing software
- Anti-counterfeit solutions
- Labelling systems to meet your Lean / just-in-time manufacturing goals

Wanting a return on your investment? Let's talk business.

As Lean and efficiency experts, we can also offer advice and recommendations on process improvement and labour efficiency. This is particularly useful if you're looking for cost-savings, or are about to invest in new machinery and systems. Contact us today to hear more about our specialist services. Everything is designed around your business and the savings you need to make.

Practical Productivity

In May 1985 Saito started out in our founding directors' basement, and in June 1991 Saito opened its Queensland office.

Today Saito remains a private family run business in the second generation of leadership.

Saito has an awesome reputation in the marketplace which has been derived from the customer centric culture instilled by our founding director and delivered by all team members, even via our casual staff. Everything we do is aimed at exceeding our customers' expectations.

Award winning customer service is one attribute but Saito are continually innovating to find ways to deliver products more competitively and take operational expenses out of our customers' business. We ourselves are manufacturers and understand that price is a key factor in any trading relationship along with confidence in quality and dependency on deliverables.

Saito continue to grow and we are immensely proud that a great majority of both our customers and staff have been with us for over twenty years and remain very loyal. As we do to them!
