Warehousing and Logistics

Here at Saito we understand that labelling has to work very hard in your business operations, therefore we produce what we term “working labels”. The ones you would apply to goods received and put away, the ones you may use in pick applications and definitely the ones that you would use to ship the goods. Enabling you to identify all your materials and keep track of how it moves from one place to another.

We can help you:

- Improve warehouse operations with everything from robust floor-mounted labelling to stand-out shelf labelling systems
- Keep track of goods on the move with portable hand scanners and labellers
- Use barcodes and technology to improve productivity, accuracy and traceability
- Select the right label printers and ribbons to suit your operational requirement
- Choose a label from our stable of standard stock lines or manufacture to your specific requirements

Saito labels and tags come in gloss, matt, polyethylene, polypropylene, thermal transfer, thermal direct, synthetic and UL approved polyesters. There are many adhesive options available so that your labels adhere to plastic, card, paper or rough surfaces in any warehouse and logistics operating environment. The Saito label range includes despatch labels for couriers, carton and pallet labelling.

Products available:

- Pallet and carton labels suited for ambient, chiller or freezer conditions
- Adhesive options for plastic, paper, card or rough surface applications
- Location labels for racks, floors, pallets and container totes
- Magnetic racking solutions
- Tethered and portable barcode scanners
- Thermal label printers (industrial, desktop and portable)
- Hand-labellers from Saito and Meto
- Label design and print software
- Labelling systems to meet your Lean / just-in-time manufacturing goals

Wanting a return on your investment? Let's talk business.

As Lean and efficiency experts, we can also offer advice and recommendations on process improvement and labour efficiency. This is particularly useful if you're looking for cost-savings, or are about to invest in new machinery and systems. Contact us today to hear more about our specialist services. Everything is designed around your business and the savings you need to make.

Practical Productivity

In May 1985 Saito started out in our founding directors' basement, and in June 1991 Saito opened its Queensland office.

Today Saito remains a private family run business in the second generation of leadership.

Saito has an awesome reputation in the marketplace which has been derived from the customer centric culture instilled by our founding director and delivered by all team members, even via our casual staff. Everything we do is aimed at exceeding our customers' expectations.

Award winning customer service is one attribute but Saito are continually innovating to find ways to deliver products more competitively and take operational expenses out of our customers' business. We ourselves are manufacturers and understand that price is a key factor in any trading relationship along with confidence in quality and dependency on deliverables.

Saito continue to grow and we are immensely proud that a great majority of both our customers and staff have been with us for over twenty years and remain very loyal. As we do to them!
