In May 1985 Saito started out in our founding directors' basement, and in June 1991 Saito opened its Queensland office.

Today Saito remains a private family run business in the second generation of leadership.

Saito has an awesome reputation in the marketplace which has been derived from the customer centric culture instilled by our founding director and delivered by all team members, even via our casual staff. Everything we do is aimed at exceeding our customers' expectations.

Award winning customer service is one attribute but Saito are continually innovating to find ways to deliver products more competitively and take operational expenses out of our customers' business. We ourselves are manufacturers and understand that price is a key factor in any trading relationship along with confidence in quality and dependency on deliverables.

Saito continue to grow and we are immensely proud that a great majority of both our customers and staff have been with us for over twenty years and remain very loyal. As we do to them!
