Scanners & Full Service Support

Saito are Solution Partners for TSC Printers. In particular Saito have found the TDP-244 compact desktop direct thermal printers to be particularly reliable and cost effective.

Saito is pleased to introduce the TDP-244 direct thermal desktop printer. In typical TSC fashion, the TDP-244 offers a perfect combination of ultra low cost with a durable and reliable design. For easy loading, the TDP-244 employs a user-friendly double-wall clamshell design with a large five-inch (outside diameter) center-biased media bay. Top-of-form sensing – by gap, black mark, or notch – is standard and completely adjustable from side to side. It also comes with a head-up sensor.

The TDP-244 has plenty of memory with 8MB DRAM and 4 MB FLASH that can be used for easy storage of fonts, international character sets and graphics, and it supports, “right out of the box,” a fully compatible set of standard industry emulations, including Eltron® and Zebra® languages, making it easy to replace old installed hardware. These printers are ENERGY STAR® qualified.

TDP-244

Features:

- Easy media loading
- Rugged Construction - High quality double walled clamshell design
- Head-up sensor
- USB 2.0 connectivity
- 8 MB DRAM, 4 MB FLASH memory
- Standard industry emulations right out of the box including Eltron® and Zebra® language support
