Scanners & Full Service Support

Saito are Solution Partners for TSC Printers. The TTP-2610MT 6.6 inch wide industrial thermal label printers have been newly updated with high speed electronics that allow for faster print speeds combined with improved print quality.

The TTP-2610MT is specifically designed for applications that require high quality wide format thermal transfer or direct thermal labels. The TTP-2610MT standard features include a large color LCD touch display, built-in Ethernet, USB 2.0, USB host, parallel and serial communications as well as an SD FLASH memory card reader that allows users to inexpensively add up to 32 GB of additional storage memory for a wide variety of fonts and graphics. The TTP-2610MT Series features the best print quality TSC has ever offered in a wide web printer thanks to new printhead technology combined with faster processors and upgraded firmware. With enhanced print quality "Thermal Smart Control"™ which tracks and precisely calculates the duration that each pixel needs to be heated to provide accurate, crisp and clear labels every time, whether you are printing one label at a time or thousands of labels in a batch. The new TTP-2610MT Series comes with a high-contrast 4.3" color touch LCD panel with 6 button control user friendly design for simple printer set up and job status.

More Value, More Features, Higher Reliability

TTP-2610MT Features:

- High quality die cast aluminum design
- "Thermal Smart Control"™ print technology produces cleanest, high quality barcodes
- 4.3" color LCD with 6-button menus and touch panel operation
- 203 dpi resolution
- Ethernet, USB 2.0, USB Host, serial and parallel connectivity are standard
- 256 MB SDRAM, 512 MB Flash n SD Flash card memory expands storage to 32 GB
- Powerful 32 bit 536 MHz RISC processor
- Auto TPH resolution switch detection
- Standard industry emulations right out of the box including Eltron®, Zebra® and Datamax language support
- USB host for stand-alone or data entry at print site
